Profile Summary

- Result-oriented **Techno-Functional Leader** with experience in **Business Analysis, Data Analytics, Product Management, and Reporting**.
- Proficient in **SQL** (MySQL, Snowflake, Oracle, Hive QL, Google BigQuery), **Advanced Excel, Tableau, Looker, Zoho**, and intermediate **Python** for data-driven decision making.
- Skilled in translating complex **datasets** into clear, actionable **insights** through **data visualization and reporting** to support business growth and **stakeholder communication**.
- Demonstrated expertise in end-to-end **Business Analysis** including **requirement gathering, As-Is/To-Be process mapping, functional specification documentation & solution design**.
- Proven ability to lead **cross-functional teams** and manage **projects**, ensuring **timely delivery** and alignment with business goals and **stakeholder expectations**.
- Experienced in **automating workflows** and building internal tools (using **Retool, CleverTap, Segment**) to optimize **operational efficiency** and reduce **manual efforts**.
- Strong background in **marketing operations, funnel tracking, campaign effectiveness analysis, and buyer retention** strategies using **data analytics**.
- Adept at coordinating with **sales, marketing, and product teams** to identify **bottlenecks** and implement scalable **solutions** that improve **processes** and **user experience**.
- Skilled in **data governance, database management, and maintaining data integrity** by defining **user access controls** and ensuring **secure data handling**.

Work Experience

Jan 2024 - Present | Bizcrum Infotech Pvt. Ltd., Delhi | Associate Product Manager

Key Result Areas:

Product Development & Feature Management

- Orchestrating the development of critical features for FOS and Retailer applications, concentrating on buyer retention strategies and funnel performance tracking.
- Coordinating with the marketing team to continuously monitor and optimize campaign effectiveness through data-driven insights.
- Overseeing app event tracking implementations via CleverTap and Segment to capture real-time user engagement metrics.

Internal Tool Development (Retool Automation)

- Leading the creation of scalable internal tools using Retool to automate recurring workflows for FOS and Marketing teams, effectively eliminating tech dependency.
- For FOS Team:**
 - Designing and launching a comprehensive onboarding/offboarding system for RM, TL, and SH roles, embedding custom validation and state mapping logic within Retool.
 - Constructing a dynamic Beat Mapping Update Tool, enabling real-time updates of FOS-to-pincode mapping integrated with audit trail functionality.
- For Marketing Team:**
 - Building a real-time Product Count on Filter Tool by integrating live APIs into Retool, supporting campaign targeting through CleverTap and dynamic homepage container management.
 - Developing a Coupon Management Tool to automate the creation, validation, and tracking of promotional codes deployed across DS and app journeys.
 - Engineering a Container Cloning Utility to duplicate homepage containers across multiple DS entity pages, drastically reducing manual intervention and maintaining visual consistency.

Core Competencies

- Business Analysis & Requirement Gathering
- Product Analysis & Management
- Data Analytics & Governance
- Business Intelligence & Reporting
- Process Automation & Workflow Optimization
- Funnel Analysis & Optimization
- Campaign Performance Tracking & Effectiveness Measurement
- Marketing Operations & Customer Retention Analysis
- Project Management & Delivery Coordination
- Continuous Process Improvement & Business Process Re-engineering
- User Behavior Analysis & Data Interpretation
- Dashboarding & KPI Tracking
- Operational Efficiency & Cost Reduction
- Change Management & Stakeholder Alignment

Education & Credentials

- 2020 | Integrated Program in Business Analytics | IIM Indore**
- 2015 | MBA/PGDM | Army Institute of Management & Technology, Greater Noida**
- 2013 | BBA/BMS | Rani Durgawati Vishwavidyalaya University, Jabalpur**

Soft Skills

- | | | |
|---------------------------|----------------------------|-------------------------------|
| Collaborative Teamwork | Interpersonal Skills | Leadership Competence |
| Effective Decision-Making | Analytical Problem-Solving | Conflict Resolution Expertise |

Homepage Management Automation (DS Specific Projects)

- Spearheading automation initiatives for homepage container management amid Bijnis' transition to a Dark Store (DS) B2B model.
- Deploying an Entity Page Generator Tool to auto-create DS-specific homepages, streamlining deployment timelines.
- Implementing a Container Creation/Deactivation Tool featuring dynamic status handling logic.
- Rolling out a Cloning Engine to replicate containers across selected DSs with integrated override checks and version management protocols.
- Defining complete product workflows, owning UI/UX deliverables on Retool, and executing tool development independently to save approximately 20 hours per week in manual effort.

Cross-Functional Collaboration & Data Analytics

- Partnering with marketing, sourcing, and operations teams to identify operational bottlenecks and resolving them through scalable internal tooling solutions.
- Structuring and finalizing Segment events for comprehensive user behavior analysis, informing decisions regarding homepage real estate optimization and marketing content strategies.
- Implementing CleverTap event configurations to automate notification scheduling for Non-Order events, transitioning from manual data uploads to a dynamic, catalog-linked event trigger system, substantially reducing recurring operational tasks.

Oct 2022 - Aug 2023 | BizCrum Infotech Pvt Ltd | Product Analyst

Key Result Areas:

- Engaged in close collaboration with sales and operations teams to have extracted actionable business insights, thereby facilitating informed decision-making.
- Spearheaded the implementation of automation within ZOHO for the finance division, which had substantially curtailed manual labor hours and enhanced operational efficiency.
- Pioneered the adoption of RFM segmentation methodologies for the sales and customer experience teams, enabling expedited strategic interventions.
- Directed initiatives encompassing the development of a Python-trigger mechanism that had provided the sales team with real-time visibility into retailer activities.
- Instituted rigorous protocols to have fortified the buyer verification process, ensuring compliance and data integrity.

Nov 2021 - Sep 2022 | Car24 Financial Private Limited | Manager Business Analyst

Key Result Areas:

- Established a priority queue to have segmented cream customers for the credit and sales teams, optimizing resource allocation.
- Devised a Tableau-based funnel flow visualization for auto-login cases, which had enabled comprehensive analysis of stage-wise impacts.
- Converted user expectations into precise functional requirements for the credit team, resulting in the development of targeted dashboards and KPIs.
- Engineered a Python-driven database to have consolidated DSA funnel data for enhanced accessibility and analysis.
- Orchestrated projects integrating DSA data with the product team to have evaluated data flows across multiple funnel stages.
- Collaborated on the auto-login funnel initiative, which had amplified the depth and accuracy of impact assessments across funnel stages.

Previous Work Experience

Dec 2020 - Oct 2021

Bharti Airtel

Senior Executive
Product Analyst

Dec 2018 - Nov 2020

One97 Communication
Pvt Ltd (Paytm)

Jr. Manager Operation
Analyst

Sep 2017 - Oct 2018

Infoedge India Ltd
(Jeevansathi)

Associate Assistant
Manager - Product
Operations

Dec 2015 - Sep 2017

One97 Communication
Pvt Ltd (Paytm)

Team Lead - Operation
Analyst

Freelance & Independent Projects

Sep'23 - Jan'24 | Self-Employed | Contractual Consultant

- Undertook independent projects, concentrating on enhancing competencies in product management, data analysis, and process optimization.
- Applied practical frameworks to develop product roadmaps and conducted market research to identify user needs and business opportunities.
